

Lab Demonstrator

Position: Lab Demonstrator

Payment: Part-time, fixed-term contract

Remuneration: €18 per hour

Location: Leipzig, Germany

Deadline and Interview Date: Continuous recruitment for the academic year 2024/25, with start dates in October and January

General Information About Lancaster University Leipzig

Lancaster University Leipzig offers a range of Lancaster University (LU) degree programmes and is committed to providing the same academic quality and fully rounded student experience as in the UK. In January 2020, the campus opened with an LU accredited foundation programme delivered by Navitas Germany GmbH – part of Navitas Group - an Australian public listed company. As a modern and dynamic educational institution committed to providing quality educational programmes and excellent student support in an environment that encourages students to achieve the best possible results in their studies, we operate several LU accredited BSc and MSc programmes.

Call for Lab Demonstrators

We invite applications from appropriately qualified and experienced individuals interested in being a Lab Demonstrator for our year two and year three modules. We offer a range of modules within the School of Computing and Communications, and applications are accepted from individuals with expertise in one or more of the following areas:

- Artificial Intelligence Concepts
- Concurrent and Parallel Systems
- Secure Cyber Systems
- Distributed Systems
- Languages and Compilation
- Security and Risk
- Advanced Networking

What you'll do:

As a Lab Demonstrator, you will be crucial in supporting the academic teaching staff during lab sessions. Your primary responsibility is to assist students with their questions and challenges (concepts/ codes), ensuring they receive the guidance they need to succeed. While the academic teaching staff cannot be everywhere at once, you will provide immediate support and escalate queries to the lecturer when necessary. This role includes the following key responsibilities:

- Support academic teaching staff within the lab environment
- Help to guide students towards a solution for their problem
- Perform additional small tasks as assigned by the academic staff to support the learning experience

Your Profile:

Interested applicants will demonstrate sufficient knowledge of the area for the module in which they are demonstrating (this could be as simple as having passed a similar module with a good grade):

- Undergraduate degree or demonstrable expertise in your subject area
- Ability to effectively communicate with staff and students from a diverse range of cultural and educational backgrounds
- A 'can do' and collegial mentality
- Fluency in English

Application Process:

Please send your cover letter and curriculum vitae in one PDF file, indicating your name to recruitment@lancasterleipzig.de. If your application is seen as a suitable fit, the following process will be observed:

1. You will be invited to attend a short meeting to get to know each other and discuss a 'typical' teaching and lab exercise, usually with the Department's Teaching Lead.
