

Logistics and Supply Chain Management MSc

Top British Master's degree in Germany

Lancaster University Leipzig is a branch campus of Lancaster University in the UK. The Leipzig campus offers the highly recognised British degree from Lancaster University while studying on a modern campus in the vibrant German city of Leipzig. The programme is taught in English.

Why study this at LU Leipzig?

With huge logistics hubs around the world, the demand for people who can apply the science of quality management to supply chains has never been greater.

In close consultation with industry, this programme has been developed to focus on the practical aspects. We offer a research-led teaching environment which is particularly strong in operations management and data analytics. Furthermore, students may undertake a 12-week placement in industry.

Graduates will have a problemsolving thinking and be able to analyse, model and optimise logistics and supply chains.

Your career opportunities

Leipzig is the fastest growing city in Germany with five main industries: Automotive, Logistics, IT & Media, Biotech and Energy. We provide a network of companies in all these fields. Our career centre supports you individually on finding a job during and after your studies. In addition you can benefit from up to 18-month extended residence permit.

FAQs

Who is the Pre-Master's programme for?

This programme is designed for students who either do not meet the academic or English requirements for direct entry. A successful completion of this pathway will allow progression to MSc degree.

Will non-EU students qualify for a 18-month post-study work permit?

Yes, you can apply for the post-study work permit to look for a job that corresponds to your qualifications. You can apply for this permit as soon as you have passed your final exam.

What are the accommodation options?

We have a variety of living options, ranging from offcampus student residences to affordable private or shared apartments. All within a short walk, bike or tram ride from the campus.

Are there any funding options?

A wide variety of scholarships is available. Additionally, EU students may qualify for tuition funding through options such as BrainCapital.

Can relevant work experience help if academic requirements are not met?

Indeed. Relevant professional experience within the industry will be considered.
