Pioneering academic research

Lancaster University Leipzig is renowned for its outstanding research in both Computer Science and Management. Together, these two fields establish the university as a hub for pioneering academic research and practical solutions.

The university's computer science department is at the forefront of innovative technologies, exploring areas like artificial intelligence, data analytics, and cybersecurity.

The management research is highly influential, focusing on leadership, organizational behaviour, and strategic management, providing valuable insights for businesses and policy-makers alike.

Your career opportunities

Leipzig is the fastest-growing city in Germany with five main industries: Automotive, Logistics, IT & Media, Biotech and Energy. We provide a network of companies in all these fields. Our Careers Centre supports you individually in finding a job during and after your studies.

International passport holders are eligible for an 18-month post-study work visa, while your Lancaster University degree will also be recognised by employers around the world.

Scholarships available

Lancaster University Leipzig offers a range of merit-based, early acceptance, and region-specific scholarships to support students in their studies. Discover the opportunities available to you and learn how to apply.
